THE COMPLETE COURSE

Concise notes. Integrated tests. An adaptive system that learns from your mistakes.

What students need.
What they often get.

	NEED	OFTEN GET
EXAM CLARITY	Specific, concise content	*Lectures, notes and more lectures*
CONCEPTUAL CLARITY	One concept at a time	*Information overload*
PERSONAL FIXES	Tests built on your weak areas	*One test for everyone*
EXAM APTITUDE	Skill to solve, not only recall	*Knowledge only*

Prelims is a test of selection. It rewards the student who knows what to study and how to solve, not the one who has read the most.

So we built *the other side.*

EXAM CLARITY	Concise notes made for the exam. Only what the exam asks.
CONCEPTUAL CLARITY	Smaran notes and concept tests. One concept at a time.
PERSONAL FIXES	The adaptive learning system. New questions built on your errors.
EXAM APTITUDE	Elimination in every answer. A tutor that teaches.

THREE IDEAS, ONE COURSE

Concise.

Short, crisp notes. Only what the exam asks.

Integrated.

Notes, tests, answers and tutor in one flow. Builds exam aptitude.

Adaptive.

Tests built on your own errors. Personal to you.
